

Week 04 : Programming Assignment 1

Due on 2025-02-20, 23:59 IST

Complete the code segment to execute the following program successfully. Note: You should import the correct package(s) and/or class(s) to complete the code.

Private Test cases used for evaluation	Input	Expected Output	Actual Output	Status
Test Case 1	PROGRAMMING IN JAVA	Course: PROGRAMMING IN JAVA	Course: PROGRAMMING IN JAVA\n	Passed

The due date for submitting this assignment has passed.

1 out of 1 tests passed.

You scored 100.0/100.

Assignment submitted on 2025-02-20, 19:57 IST

Your last recorded submission was :

```
1 import java.util.Scanner;
2 import static java.lang.System.out;
3
4 // main class Question is created
5 public class Main{
6     public static void main(String[] args) {
7         // Scanner object is created
8         Scanner scanner = new Scanner(System.in);
9         // Read String input using scanner class
10        String courseName = scanner.nextLine();
11        // Print the scanned String
12        out.println("Course: " + courseName);
13    }
14 }
```

Sample solutions (Provided by instructor)

```
1 // Import of pre-defined package java.util and class Scanner
2 import java.util.Scanner;
3 // Import of pre-defined package java.lang and class System and all of its member
4 import static java.lang.System.*;
5 // main class Question is created
6 public class Main{
7     public static void main(String[] args) {
8         // Scanner object is created
9         Scanner scanner = new Scanner(System.in);
10        // Read String input using scanner class
11        String courseName = scanner.nextLine();
12        // Print the scanned String
13        out.println("Course: " + courseName);
14    }
15 }
```
